Experience

- Software Engineer - Alchemy Software Limited Chattogram - April/2022 to Present
  - I have contributed here building a full stack chat application(web) specially in frontend along with another react developer.
  - I have developed a bulk SMS sender application integrating twilio api & socket io.
- Junior Software Developer Intern - ZORG IT Group Chattogram - Dec/2021 to Feb/2022
  - I have contributed here frontend developing a website for a local interior design company along with other interns.

Projects

- **File Refacto CLI - NPM Package**
  GitHub | Package
  Technology Used: Nodejs
  Features:
  - Rename files with a specific extension.
  - Change the extension of files in a directory.
  - Rename files using a wildcard pattern (e.g., brand-* for brand-1, brand-2).
  - Traverse directories and subdirectories recursively.
  - Preserve the file extension while renaming.
- **Bike Island**
  GitHub Client | GitHub Server | Live
  Technology Used: React, Material UI, Firebase, Express, Nodejs, MongoDB
